

# JFrog DevOps: Secure Software Pipelines & CI/CD Mastery

Instructors: [Joseph Adeleke](#) +1 more[Enroll for free](#)

Starts Nov 26

Included with **Coursera PLUS** • [Learn more](#)

## 1 module

Gain insight into a topic and learn the fundamentals.

## Beginner level

Recommended experience ⓘ

## 3 hours to complete

## Flexible schedule

Learn at your own pace

## What you'll learn

- ✓ Explain the roles of JFrog Artifactory and JFrog Xray in automating and securing CI/CD pipelines.
- ✓ Use JFrog Artifactory to efficiently manage and secure artefacts within CI/CD pipelines.
- ✓ Integrate JFrog Artifactory and JFrog Xray with GitHub Actions workflows to manage build artefacts within a CI/CD pipeline.
- ✓ Evaluate software vulnerabilities and license compliance issues by interpreting JFrog Xray scan results.
